Reformers Denounce Coolidge For Lack Of Dry Enforcement

LAW ENFORCEMENT IS CALLED FARCE; BLAME PRESIDENT

Report of Organizations
Demands Removal of
Sec'y Mellon

FINE MORALIZING, NO ACTION, CLAIM

Alarming Conditions Due to
Willful Indifference,
Report Charges

Washington, Dec. 3. — The most
acrid criticism that has yet been di-
rected at President Coolidge came to-
day from the United Committee on
Prohibition Enforcement comprising
representatives of more than two
score reform organizations.

In a report on present day pro-
hibition conditions adopted and sent
to the White House, the professional
drys denounced the administration's
enforcement of the Eighteenth
amendment and the Volstead law as a
"farce and a scandal," demanded the
removal of Secretary of the Treasury
Mellon and laid responsibility for
non-enforcement of the law directly
on the White House door step.

The report was drafted by Clinton
N. Howard of Rochester, N. Y., one
of the earliest prohibitionists, and
was adopted at a meeting from which
the public and newspaper men were
barred.

"The president has done some fine
moralizing on the general enforce-
ment of law," said Howard's report,
"but he never has yet unreservedly
committed himself and his adminis-
tration to the enforcement of the
Eighteenth amendment, as provided
by his oath to support and defend the
constitution."

Concerning present conditions, the
report stated:

"It is an insult to our intelligence
and a challenge to our patriotism to
say this is the best the government
can do to enforce its laws. If this is
true the government ought to be
pitied for its ineptitude and damned
for its incapacity."

The reference to Sec'y Mellon was
as an "ex-distiller," and President
Coolidge was advised to take direc-
tion of enforcement from his hands.

As indicative of the "perilous" ef-
fects of the government to enforce
the law, the report pointed out that
there have been more than 30,000
arrests for drunkenness in Wash-
ington since the adoption of prohi-
bition.

The alarming conditions that now
prevail in this country," the report
continued, "are not the result of pro-
hibition, but the result of treason to
the constitution and willful indiffer-
ence, incompetence or perjury on the
part of certain public officers who
are charged with enforcing the law."

Gov. Gifford Pinchot's "expose" of
also prevails in Philadelphia, which
also prevails in other cities, is making
prohibition a subject for "hissing"
among millions of citizens, it was
said.

"The people," continued the report
"will not long tolerate the present
serious brand of prohibition."

PROSPERITY SOUND DECLARES MELLON

Business Has Every Reason
For Confidence, He
Tells Callers

Washington, Dec. 3.—The present
prosperity in American business is
built upon solid ground and there
are no indications of inflationary or
"boom" tendencies, in the opinion of
Secretary of the Treasury Mellon.

Mr. Mellon informed callers at the
treasury today that business should
have every reason for confidence, as
the industrial expansion of the last
year has proceeded along sound, or-
thodox lines, and has been governed
by steady increase in consumption,
thus creating a normal condition of
"good times."

Mellon was quoted as saying that
if the average prices of stocks of-
fered on the New York and other
exchange markets are considered in
comparison to prices in 1914, the ad-
vance in prices correspond to the
drop in the buying power of the dol-
lar over that period.

While it was admitted that some
stocks are inflated, and that specu-
lative tendencies exist in some com-
munities, Mr. Mellon observed that
this condition is always present but
is without serious danger if no fur-
ther spread takes place.

Saves Hundreds Of Lives in Fire

Council Bluffs, Ia., Dec. 3.—
Milton Alden, a night watchman,
is perhaps responsible for saving
the lives of several hundred
persons when he spread the
alarm of the two million dollar
fire which started in Council
Bluffs early this morning and
at 11 o'clock was still raging,
although fire fighters believed
it under control.

Alden first heard the explo-
sion of a boiler in the Conti-
nental Furniture building. Rush-
ing to the scene he found
Watchman McManigal of the
building enveloped in flames. He
wrenched the man in carpers and
had him taken to the hospital.

By this time the fire had
spread to the Grand hotel across
the street where 150 guests were
unaware of the danger.

IRISH FREE STATE GETS 25 MILLION A YEAR VICTORY

Ulster Demands Also Will
Be Met; Boundaries To
Remain Unchanged

London, Dec. 3.—The Irish bound-
ary dispute promises today to end in
a \$25,000,000 a year victory for the
Irish Free State.

The provisions of the Irish peace
treaty called for an adjustment of
the boundaries between the Free
State and Ulster, this new border
to be fixed by a boundary commis-
sion.

President Cosgrave insists that
under the terms of the treaty the Free
State is entitled to an adjustment of
the borders and he is not prepared to
accept a proposal for the maintenance
of the status quo of the border with-
out concessions. He is now pressing
for a remission of the Irish Free
State's share in the public debt of
Great Britain, and it appears that
he will be successful in his contention.

The Irish Free State is called upon
to contribute about \$25,000,000 a
year for the reduction of the public
debt of Great Britain, and it is now
practically assured that the Free State
will be relieved of this burden.

Ulster has made her demands too.
It is understood that she is insist-
ing upon a grant of several hundred
thousands of pounds for the main-
tenance of police patrols along the
border. Ulster will probably get her
demands.

The upshot of the whole dispute
appears likely to result in the Irish
boundaries remaining unchanged,
with Great Britain making financial
sacrifices for the sake of maintaining
peace in "John Bull's other island."

BAR INSURGENTS FROM COMMITTEE

Washington, Dec. 3.—House Repub-
lican leaders today decided to ex-
clude insurgents from the major com-
mittees of the lower chamber.

Important committee posts will be
denied members of the Wisconsin
legislation and other so-called insur-
gents until they show their "Re-
publicanism" by voting for the ad-
ministrations legislative program,
particularly the new tax bill drafted
by the ways and means committee.

MAIL IS DAMAGED AS POUCH ROLLS UNDER THE TRAIN

Contents of a pouch of mail thrown
from train No. 23, the Manhattan
Limited at the Pennsylvania station
this morning, were damaged to a
great extent when the pouch rolled

Some of the matter is in such a
condition that it is scarcely readable
some is cut to pieces and probably
some of it is missing.

Mail that is in the worst condition
is at the postoffice and if anyone has
any mail missing, he may call at the
office and have same by identifying.

Prospector Finds Large Gold Nugget

Anchorage, Alaska, Dec. 3.—Excite-
ment ran high here today follow-
ing the discovery of a gold nugget weigh-
ing 423 ounces by C. B. Nelson, a
prospector, Nelson discovered the
large nugget on the Kantishna river
about 60 miles west of Koko. The
nugget is valued at \$31.

After borrowing enough money for
a grubstake, Nelson returned to the
scene of his find. Nelson's discovery
is the third placer strike reported this
season.

WETS DRAFT BILL TO PROVIDE BEER AND LIGHT WINES

Measure Faces Defeat But
Gives Wets Chance To
Air Whole Muddle

SOMETHING WRONG SAY CONGRESSMEN

Both Sides To Co-Operate
With Coolidge In En-
forcement Drive

Washington, Dec. 3.—Linked to the
question of providing greater re-
sources for the enforcement of Amer-
ican prohibition, a determined drive
will be inaugurated in the new con-
gress to secure passage of a "beer
and light wines" bill.

This became known today when
Congressional "wet" leaders began the
actual drafting of a bill. The measure
will be sponsored in the house
by Rep. Philip R. Hill (R) of Mary-
land, spokesman for the anti-prohibi-
tionists. This measure, even though
facing a virtual certainty of defeat
and the supply bills to finance prohibi-
tion enforcement, however, will
give the "wets" an opportunity to air
the whole prohibition muddle on the
floors of the house and senate.

And the "wets" are determined to
do this.

A gradual change in congressional
sentiment meanwhile was observed
among congressmen and senators ar-
riving in the capital for the opening
session of congress. Whereas they left
here last March strictly opposed to
any change in the existing dry law, a
number have returned with the belief
that "something is radically
wrong," a little undecided about the
remedy, but determined to give the ad-
ministration every assistance in pro-
viding dollars and men with which
to carry out a final effort to actually
enforce prohibition.

The wets are frankly optimistic
that prohibition will be amended at
no distant date; the "drys" were
plainly worried over the nation-wide
publicity given facts which indicated
a widespread floating of the dry law.
With the issue raised by the "wets,"
it was apparent that both sides would
cooperate with the Coolidge adminis-
tration in its gigantic drive to en-
force the law. Thereafter, probably in
the short session beginning in Decem-
ber 1926, will come a real showdown
between the two groups over prohi-
bition.

Another significant prohibition de-
velopment was indicated in a change
of sentiment among the "wets," a
switch from advocacy of a "beer and
light wines" bill to a proposal for
amending the eighteenth amendment
itself.

This view was expressed by Sen-
ator William C. Bruce, (D) of Mary-
land, one of the senate's "wet" lead-
ers.

"While I have set my face like flint
against the return of saloons, I am
satisfied the prohibition law cannot
be universally enforced," said Bruce.
"I expect to see an attempt made to
amend the eighteenth amendment so
that the present prohibition situation
will be ended but the government
given power to regulate and super-
vise the sale of liquors. This system
has been tried in Canada and
proved very successful. It would
sober America, now becoming noted
for drunkenness."

While a great deal of charity work
is done through this service, it is

are expected to pay for this service.

there were 245 free patients, while
the number of paying patients was

as is evidenced by the report.

"While this boy thought he was on

into the way she laid open to him,"
asserted Mills, terming defense coun-

the aggressor in the courtship as

WOMAN THWARTS RESEARCH ROBBERY

"Efficiency Engineer" In
Crime Wants Thrill;
Tests Methods

New York, Dec. 3.—Leon Benjamin,
25, "efficiency engineer" in crime, ac-
cused to police, was under arrest
today after his alleged attempt at
robbery for research purposes was
thwarted by a woman's fighting
pluck.

Benjamin, who lives in Brooklyn,
is a student at Columbia univer-
sity, declared both police and bur-
glars lack the scientific finesse, po-
lice said.

Benjamin is charged with having
beaten Mrs. Louis Willet while at-
tempting to rob her. Mrs. Willet
and her husband own the apart-
ment in Brooklyn where the student lives.

"I advocate 100 per cent efficiency
and also wanted a thrill," Benjamin
is said to have stated in his police
confession. "To test out my modern
methods I prepared for action and
drilled a friend to assist me. I also
had a grudge against Mrs. Willet."

"I had two masks made and trained
my comrade. He was to pose as the
gas man. I was to be behind him.
Once inside we were to adjust our
masks."

"Everything started right but Mrs.
Willet screamed and put up a fight.
Our weapons were only imitation pis-
tols."

A friend of Mrs. Willet was also
beaten. Benjamin was arrested in
the backyard. His alleged accomplice
disappeared.

Benjamin's fingers were found
coated with shellac, police said, and
he explained this was the new meth-
od to avoid leaving fingerprints be-
hind.

FIRST GUN FIRED IN NEW AIRCRAFT WAR

Bills to Revolutionize National Defense
Machinery Will Bring Conflict

Washington, Dec. 3.—The first shot
in what promises to become a terri-
ble fight between a powerful congres-
sional group and leaders of American
military policy over aeronautics and
national defense generally, was fired
today by Rep. Charles R. Curry (R)
of California.

Curry announced he had completed
the drafting of two bills designed to
completely revolutionize the entire
national defense machinery and
would introduce them when con-
gress convenes next Monday.

One bill would abolish the secre-
taryships of war and navy, substi-
tuting therefore a secretary of na-
tional defense. The other would com-
pletely unify military aeronautics and
place far-reaching authority in the
secretary of commerce to regulate
commercial aviation.

This new legislation contradicts in
its major particulars the recommenda-
tions of the Morrow board, which
President Coolidge personally appoint-
ed to investigate aircraft conditions,
and which has just returned a report

opposing the views of Col. Wm. Mit-
chell.

The Morrow report characterized
the unified air service as an expen-
sive and unjustified step, and assert-
ed the air forces of the nation had
not yet reached the stage where they
merited a separate department on a
parity with other branches of the
government. The air service, Mor-
row's report said, should remain as
it now is—subordinate to the army
general staff and the navy general
board.

President Coolidge, it is understood,
will approve the recommendations of
his own commission, thus throwing it
into direct conflict with what
Curry, and a considerable part of con-
gress, believe is necessary.

The Curry Bill will find further
support in the report of the house
aircraft committee, soon to be pre-
sented, which will endorse Col. Mit-
chell's contentions almost as fully as
the Morrow board threw them down.

Thus the stage is set for a con-
flict in the new congress of sanguine
proportions.

Pep Is Calcium In Body He Says

Columbus, O., Dec. 3.—"Pep" is
calcium, declared Dr. Weston A.
Price, Cleveland, addressing the
Ohio Dental society whose
annual convention closes here
today.

Vigor, initiative, energy,
strength and disposition are
good or bad, according to the
manner in which the body con-
sumes and uses calcium, Dr.
Price said.

He stated that the sun is the
real fountain of youth, pouring
down "radiant energy" almost
capable of restoring the dead to
life. Cod liver oil is "canned sun-
shine," serving when used either
internally or externally, as an
activating agent for calcium
in the body.

Betz building, Market st. East Liv-

Election of officers and adoption
of the budget for 1926 were other
features of the meeting.

I. F. Mellinger, Leetonia, was
named president, Atty. W. S. Stevenson,
East Liverpool, vice president; Dr. H.
K. Yagge, Salem, second vice pres-
ident; Rev. P. W. Macaulay, Lisbon,

"Air Worthy" Planes May Fly Over Canada

Washington, Dec. 3.—By an ex-
change of notes between the state de-
partment and the British embassy, it
was agreed today to extend the time
that American aviators may fly over
Canadian soil until April 2, 1926.

The only proviso was that such
planes be certified as "air worthy"
before crossing the border.

Red Cross Nurse Is Kept Busy As Annual Report Reveals

PROPERTY OWNER ANSWERS ATTACK ON PERMIT COST

Replying to charges of council-
men that builders of new properties
in Salem have been giving false re-
ports of the cost of construction, one
property owner declared to The News
today that the cost specified in the
building permit has no effect on the
appraisal value for taxation pur-
poses.

The man said that his property had
been listed below the actual cost in
the permit, but that he understood
the permit was required merely to
advise taxation authorities that a
new building is being erected so it
may be placed on the tax duplicate.

His action, he said, was based on
legal advice and on experience in ob-
taining building permits in other
cities.

REBEKAH LODGES WILL MEET HERE FRIDAY EVENING

conducted among the lodges for
these winter meetings and delegations
from all the lodges are expected.

RED CROSS ENROLLMENT

It is entirely fitting that the an
nual enrollment in the American Red
Cross should come at this season of
the year, when thoughts are concen
trated on the needs of the winter
months and what the Red Cross may
do to meet those needs.

The Red Cross came to be a vital
organization because of the need for
the care of the sick and wounded dur
ing war time, and was chartered in
the United States by congress in
1905, after activities conducted from
the District of Columbia since 1881 in
conformity with the convention of
Geneva, which joined many nations
in humanitarian work. Until 1905 the
organization of the American Asso
ciation of the Red Cross was spor
adic, but after the charter by con
gress of the American Red Cross it
became a nationwide activity, with
chapters in every community. This
year its membership was approxi
mately 3,500,000, while more than
6,000,000 children were enrolled in
the American Junior Red Cross.

The American Red Cross is an in
stitution which works for the benefit
of humanity at all times. To recall
wounded when war is being waged is
to forget a great part of its most
essential work and the need of funds
for its conduct. To impress this
thought and to gain a sustaining
membership the annual enrollment
of members is provided.

Under its charter the Red Cross is
required to be prepared to provide
adequate relief for every emergency
due to pestilence, famine, fire, floods
or other great national calamities,
and to take all possible preventive
measures. These obligations call for
extensive peace time operations, and
how well they have been conducted
is illustrated by the work of the fiscal
year ended June 30, 1934, which
marked the new high record for as
sistance. In that year there were
62 major disasters and 130 minor dis
asters in which the Red Cross ex
pended the sum of \$737,603 for relief.

To point out the character and the
worth of relief work done by the
Red Cross is not necessary in a com
munity like this where the evidence
has been given. The service to de
mobilized veterans of the World war
and their families is example of the
peace time functions of the Red
Cross which needs not to be recounted
because it is so recent. There is
no likelihood that Salem will be de
linquent in its support of the Amer
ican Red Cross ever, but it is well
that thought be given to the obli
gation.

In this community, where the Red
Cross is the only real welfare organi
zation, and where it is necessary for
it to do civilian relief work, it has
given constructive help to many fam
ilies, assisting them in times of sick
ness and to get back on their feet
and become self-supporting. The re
ports of the home service secretary
and the nurse, just published, furnish
ample reasons why everyone in the
city should support the Salem chap
ter, Red Cross, by enrolling today.

Rehabilitation

By FREDERIC J. HASKIN

Washington, Dec. 3.—While every
one is familiar with the work which
has been done, and is still being
done toward rehabilitation of those
disabled during the war, there are
no doubt a great many who do not
know so much about the rehabilita
tion of civilians.

It has been estimated that each
year 180,000 persons suffer perma
nent physical disabilities as the re
sult of public and industrial acci
dents. In addition to these there are
those who are disabled from disease
or congenital conditions. While not
all of these suffer vocational handi
caps it is believed that about 50 per
cent are vocationally handicapped.

In 1920 an act of congress known
as the Industrial Rehabilitation Act
was passed. This was later amend
ed and is now known as the Civilian
Vocational Rehabilitation Act. Under
this law the Federal Board for Voca
tional Education is charged with "the
responsibility of promoting in the na
tion the vocational rehabilitation of
persons injured in industry or other
wise."

Under the act, the federal govern
ment agrees to enter into a partner
ship with the States in the work of
rehabilitating civilians with voca
tional handicaps. For this purpose con
gress annually appropriates a million
dollars which is to be distributed
among the States upon a basis of popu
lation. The States in turn match
each dollar of federal money with a
dollar of theirs, and these matched
funds are expended dollar for dollar
in the work.

The money appropriated for this
work may be used for administrative
expenditures, for costs of tuition for
disabled persons in training, and for
instructional supplies. Under certain
conditions it may also be used for
the purchase of artificial appliances
and for the cost of physical examina
tion.

At the present time there are 39
States co-operating with the federal
government in this work. It is easily
realized what an important thing this
work of rehabilitating the vocation
ally handicapped is. It means that
such a person instead of becoming a
permanent charge on the state is
within a comparatively short time
self-supporting.

In the vocational rehabilitation of
men and women who have been in
capacitated through accident or dis
ease a special study is made of the
individual. What might be the prop
er training for one man who had lost
an arm would be useless to another
with the same handicap. In order
that a person may be restored to max
imum usefulness it is necessary that
the restoration be accomplished on
the basis of what he has left, not
what he has lost. Consequently a
study must be made of his education,
attainments and an analysis of his
working experiences. Also his men
tal qualities, traits, ambitions, re
sourcefulness, ingenuity and adapt
ability to new conditions must be
taken into account.

One of the chief objects of the re
habilitation service is to see that the
disabled person is given the oppor
tunity of obtaining employment in
which his physical disability will not
appear as a handicap. Therefore
very careful consideration is given
to the selection of a new line of
work. It has been said that in many
cases men who have been vocation
ally rehabilitated have found their new
work more remunerative than that
which they were doing prior to their
injury.

Q. What is a Charley-horse? E. C. G.

A. Charley-horse is a slang phrase
used in reference to a severe pain.
Athletes seem to be especially sus
ceptible to this condition. Grantland
Rice defines it as a sudden bunching
of muscles into a hard knot and says
that it is one of the most prevalent
and most painful of athletic ills.

A. It is Ramon GH Samanagos. He

Q. What town has the longest
name in the world? J. R.

A. What is believed to be the
longest geographical name in the
world is that of a town in Anglesa,
Wales. In the postal directory only
the first 20 letters are given as suf
ficient for practical purposes. The
full name contains 59 letters, Llan
ellianddysskiioyogoch. The name
means "The Church of St. Mary in a
hollow of white hazel near to the
rapid whirlpool, and to St. Tisilio
church, near to a red cave."

Q. When honey is used instead of
sugar, how much should be used? W. D.

A. As honey contains about 29 per
cent of water or a little more, it
would require 29 per cent more
honey than sugar when it is used as
a substitute.

Q. What is the old "How old is
Ann" puzzle? E. W. R.

A. The following is the problem:
"Mary is 24 years old. She is twice

old as Ann is now. How old is Ann?"

The answer is 18 years of age.

Q. What is the difference between

Q. Can I obtain a patent on a new
machine in which a device that al
ready has been patented to another
inventor is combined as an element
with other elements, according to my
own ideas? M. R. N.

A. If you have invented a new and
useful machine which meets those
requirements of the patent law that
must be satisfied in the case of in
ventions in general in order to con
fer patentability, the mere fact that
one element of your machine, consid
ered by itself, has already been
patented, will not necessarily stand
in the way of the grant of a patent
to you covering the machine. How
ever, the grant of a patent to you
upon your machine will not give you
an independent right to make and use
as a part or element of it something
that has already been patented by
another inventor. You will be liable
to the patentee of the device, if you
actually make the latter and apply
it in building your machine, without
the permission of such patentee.

SPAIN'S MILITARY GOVERNMENT ENDS

Civilian Cabinet Is Formed
By De Rivera Through
Fear Of Revolt

Madrid, Dec. 3.—Spain has gone back to a civilian government through fear that the plainly indicated popular discontent would break forth in revolution. Gen. Primo De Rivera, the premier, informed newspapermen today.

The military directorate, which has governed Spain under Primo De Rivera for more than two years, gave way to a cabinet made up wholly of civilians, early this morning.

The announcement of the shift to a new form of government came with a startling abruptness. That it was impending was news to no one, the premier having repeatedly stated that the change was coming "sooner or later." The announcement of the definite change of governments was made shortly after Gen. De Rivera left the king's place where he had been in consultation with King Alfonso.

The members of the new cabinet have been drawn almost entirely from a group known as the Patriotic Union. Most of them have been more or less intimately associated with the work of the directorate.

Gen. De Rivera said the new government would not relinquish the arbitrary powers acquired under the military regime. It would continue to maintain a rigid censorship of all newspapers and restrict the right of all political organizations.

INFLATION BILL PASSES: VICTORY WON BY BRIAND

Paris, Dec. 3.—Worn out by a night long struggle, M. Briand won a victory today when the Chambers of Deputies adjourned shortly before noon, after having given Briand a slender vote of confidence and having passed the inflation bill proposed by Finance Minister Loucheur.

Briand personally directed the fight for passage of the inflation bill and its success may be attributed largely to his own personal efforts.

Socialists and Conservatives alike were opposed to the bill but under the driving of the premier they eventually passed measure after measure in the bill.

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. Creomulsion Company, Atlanta, Ga. (adv.)

WORK OF HEALTH BODY EXPLAINED BY DR. CHURCH

A special meeting of Clarkson strange Tuesday night was the closing event of the two-day State Aid Farmers' Institute held in the Clarkson grange hall.

The address of Dr. T. T. Church, of Salem, county health commissioner, was an explanation of the laws governing the formation and functioning of a modern board of health, contrasting the present method, with a central office, to the time when the county had about 25 different boards of health, each functioning according to its own ideas and with no supervised program. He also explained the cost.

Dr. Church spoke of the duties of the board of health, the abating of nuisances, the gathering of information as to contagious diseases and efforts to control them, the gathering of records of the birth and deaths, supervision of tubercular patients and crippled children.

He said the board is also expected to visit the schools to see that they are in sanitary condition and then to look after the growing children and assist their parents in cultivating the greatest crop that can be raised in the city or on the farm, thorough breed boys and girls.

DEWIES PROTEST OF BLIMP FLIGHT

Lansdowne Didn't Protest
Says Senior Surviv-
ing Officer

Washington, Dec. 3. — Flat denial that Lieut. Commander Zachary Lansdowne protested against taking the Shenandoah to the Middle West on the disastrous flight that resulted in 14 deaths was made to the Col. William Mitchell court martial today by Lieut. Commander C. E. Rosendahl, senior surviving officer of the airship.

"Lansdowne did not protest the flight as planned," said Rosendahl, a prosecution witness.

This direct contradiction of testimony by Mrs. Margaret Ross Lansdowne, widow of the ship's commander, given the court martial several weeks ago, came as a climax to protracted examination by Maj. Gen. Galtion, War department prosecutor.

Rosendahl was immediately turned over to Rep. Frank R. Reid, (R.) of Illinois, Mitchell defense counsel.

Reid sought to break down Rosendahl's contention that parachutes were not valuable on dirigibles.

Rosendahl explained that parachutes are not carried on dirigibles because of their weight and the difficulty of putting them on in emergencies.

"Experienced dirigible operators, including the Germans do not use parachutes," Rosendahl said.

OFFICER VICTIM OF AN ATTACK BY MUTILATORS

Washington, Dec. 3.—Paul A. McDuffie, a White House policeman, staggered into Providence hospital early this morning the victim of an attack by mutilators. He had been drugged, and operated upon by three men whose names he was unable to give.
The officer was in a terrible condition from loss of blood and the effects of the drugs. He told the hospital authorities that he left his home, off duty late last night to go to a nearby store, and that upon his return he was accosted by three men who said they had been robbed in a house in South Capitol st.
"They said they were ex-service men," said McDuffie, "and as I am one myself I went with them. When we got to the house they offered me a drink and I accepted. After that I don't remember much until I came to the hospital."
McDuffie said he remembered wandering around the streets in a daze before his arrival at the hospital.

The Piercing Pains of NEURITIS

Torturing pains—the kind that pierce and burn and never seem to let up—that rob a man of his sleep—that make him just a bag of nerves and all worn out.
Those are the pains that dope and coal tar products can only relieve. You've got to get something more lasting.
The quickest, safest and surest way to get rid of the persistent, nerve-racking pains of Neuritis is to get a bottle of Allenhu Special Formula No. 2. Be sure you get No. 2 which comes in capsule form. Take these little dark green capsules as directed and notice how in about 24 hours they have considerably reduced if not entirely disappeared.
It doesn't matter how long you may have suffered or whether your Neuritis is in the shoulder, arm, neck or legs. Allenhu Special Formula No. 2 will stop the torture and give you speedy relief.
The J. H. Lease Drug Co., Floding's drug store, Bolger & French or any good druggist will be glad to supply you. Adv

A NEW ADDITION TO OUR SERVICE NEW YORK to FLORIDA

Clean, Comfortable, Economical Way

By Sea on S. S. Kroonland

Largest and Most Comfortable ship in Coastwise Service First Sailing, December 10th, 1925

Clean, Comfortable, Economical Route

The advent of the American Line's service between New York and Miami, with the great transatlantic liner Kroonland, heralds a new era in coastwise traffic. Here is an ocean steamship of 22,500 tons displacement, (about 10,500 tons larger than her nearest competitor) that sets a new standard in coastal service. From now on the voyager from New York to the golden vacation lands of Florida can go by sea, and still enjoy the comforts of transatlantic travel—the comforts, sturdiness and steady sailing qualities which are made possible by the huge size of the Kroonland. But important as her size is, the Kroonland offers infinitely more than that. Her shipboard service is smooth-functioning, courteous and helpful. In cuisine she compares favorably with the highest transatlantic standards. As a ship of the American Line Fleet she maintains the traditions of ultra-service built by the only line which has carried the American flag across the Atlantic for more than half a century. Yet this new service is economical. A large proportion of the accommodations are priced at fifty dollars. This covers room, berth, and meals. For those who demand more luxury there are superior accommodations at slightly higher rates. Rooms are available with private bath and en suite. The Kroonland will operate on a weekly schedule, leaving Pier 62 (foot of West 23rd Street) New York every Thursday and leaving Miami Sunday. She will carry First and Third Class passengers only, and the number of these will be strictly limited. In view of this limitation and the popularity with which the service has met prospective passengers are urged to make reservations as early as possible in order that they may have the widest choice of accommodations. Miami, situated on east coast of Florida at beautiful Biscayne Bay, is convenient to all parts of the state. Prompt train and motor bus connections are made which will bring the traveler within a few hours to any point on the East or West coast. The sparkling gaiety of this thriving modern city, and the exceptional charm of the new resorts and developments within a radius of a few miles, make it the interesting and logical entrance for all travelers to Florida. Begin your vacation or your business trip to Florida in this unusually satisfactory way. Begin it with a short ocean voyage which will mean infinitely more to you than merely a "means of getting there." You will be in vacation land as soon as you have stepped aboard the Kroonland at New York. For the return from Florida the trip on the Kroonland makes a very fitting and restful conclusion to a happy vacation. A liberal reduction is allowed on round trip tickets. Fare from New York to Miami, \$39.00 and upwards, including meals and berth. Passengers' automobiles are carried uncrated. For more detailed information or booking apply to

COURT NEWS

Rakestraw Wins

After the testimony had been completed, Judge James Glenn in common pleas court directed the jury to return a verdict in favor of the defendant in the case of Thomas Rakestraw against C. V. Rakestraw of Salem. In this case the plaintiff represented the Moose lodge of Salem, and the action against the defendant was concerning the use of property by the defendant that is claimed by the plaintiff.

After the verdict had been returned by the jury, K. L. Coburn, as counsel for the plaintiff gave notice of appeal. The court had ruled that Rakestraw has all the rights pertaining to a theater entrance, despite the wording of the deed to the Moose.

Judgment By Default

Judgment by default for the plaintiff has been rendered by Judge Glenn in common pleas court No. 2 in the case of the Hartford Accident and Indemnity Co. against W. H. Voneman and Rachael B. Voneman. In this action the plaintiff sought the recovery of its claim amounting to \$565.22. Voneman is now in Cleveland, although Mrs. Voneman is still residing in Salem.

Quick relief guaranteed or money back at once.

Here at last is a wonderful ointment that gives immediate relief from the miseries of this torturous ailment.

Pile-num, as this amazing unguent is called, stops pain almost instantly. It soothes soreness, itching goes at once. Not only do you feel eased and more comfortable, but your passages are thoroughly lubricated to prevent any sudden irritation.

In many cases Pile-num actually eliminates the ailment itself and some of the causes. Money back if Pile-num does not bring relief with astonishing quickness. At good druggists, such as: Bennett's, Lease's and Treat's Drug Stores.

RHEUMATISM, GOUT, BACKACHE, LUMBAGO

Physicians say that rheumatism, gout and lumbago are caused by acids and poisons in the system due to weak or disordered kidneys. Mere surface rubs, liniments, etc., not touching this internal cause give only temporary relief. But there is a famous old Dutch internal remedy long known to physicians and now put up in easy-to-take, tasteless capsules which goes direct to the congested, run-down kidneys, drives out poisons and gets the organs working normally and naturally again often in just a few hours. Relieves aches, pains, lameness, stiffness so quickly it seems like magic. Ask for Red Mill Haarlem Oil. Costs only 50c. and results positively guaranteed or money back. Sold by:

Bennett's, Lease's and Treat's Drug Stores.

YANK-INDIAN TRADES BEING DISCUSSED

By DAVIS J. WALSH
New York, Dec. 3.—The business of attempting to make a vest out of an arm hole and a championship contender out of what remains of the New York Yankees was scheduled to begin today. The first step in the transaction involved the scheduled arrival in town of Miller Huggins, who manages the ball club from the region of the average man's knees.

He will confer with Jacob Ruppert, president of the outfit, and Ed. Barrow, its business manager, and when the boys get through, it is said to be presumed that they will have Joe Sewell playing shortstop and Al Simmons in centerfield. It is surprising what one can accomplish in a conference.

However, what is expected to be discussed is a trade or so that will give the Yankees a pitcher or so and a workable combination at second base, these items being conspicuously absent at the moment.

Mr. Barrow has blandly remarked that the Yankees will start the season with Mark Scott and Tony Lazzeri, a pair of minor leaguers, at second and shortstop respectively. This remark only goes to prove that headline stories haven't lost their luster yet.

However, the statement has been taken to mean that Aaron Ward is soon to go on a long journey, with

EIGHT 1926 GRID GAMES SCHEDULED

Faculty Manager Vickers Has Two Open Dates For Next Season

The football schedule for Salem High for 1926 has been partially completed by Faculty Manager R. P. Vickers. So far eight games have been arranged, five away from home and three here. Mr. Vickers hopes to get games here on two open dates, making an even ten game schedule.

Games at home arranged for are: Struthers Oct. 15; East Liverpool Nov. 6, and East Palestine Nov. 20.

There are open dates on Sept. 25 and Oct. 30. The latter date may be filled by an Alliance-Salem game but Alliance is waiting on Mount Union's schedule before arranging all games since Alliance can only play on Mount's field. Several teams are being sought for the other open date. Unless Alliance can come here on one of the open dates another school will be selected for a game here.

Out of town games are at Sebring, Akron West, Wellsville, Leetonia and Lisbon, the latter being the Thanksgiving day affair at the county fair grounds.

The schedule is as follows:
Sept. 25—Open.
Oct. 2—Sebring there.
Oct. 4—Akron West there.
Oct. 14—Struthers here.
Oct. 22—Wellsville there.
Oct. 30—Open.
Nov. 6—East Liverpool here.
Nov. 13—Leetonia there.
Nov. 20—East Palestine here.
Nov. 25—Lisbon there.

PICKS ALL-INDOOR LEAGUE TEAM HERE

Fan Announces Selections To Stir More Interest In The Game

Four members of the champion Nail Mill team, including that nine's star battery, are picked on the all-indoor league team in selections made by a prominent fan who saw most of the games.

No effort was made by the league to name its all-league team so the fan said he would make his selections just to stir up more interest in indoor ball. He says that the managers of the teams in the cage league this winter select the best players, hand them to The News, and have the list of these players receiving the most votes placed on the all-league selection.

Hagan and Smith the star battery for the Nail Mill, receive the pitcher's and catcher's choices on this team. A. Wright of Silvers is placed at shortstop; Holloway of Demings is at first base; Myers of the Nail Mill

is given first call at second base and Borton of the Nail Mill is at third.

In the outfield are Bill Saunders; Demings, left field; C. Geiger, Victor, center field; and R. Wright, Lyles, at right field.

May Discard Toole As International League President

New York, Dec. 3.—Reports were general today that the International League may choose a new president to supplant John Conway Toole at its annual meeting here next Monday.

It is understood that Toole's popularity with the league owners has waned since he instituted his campaign against the major league draft and that Jack Dunn, of Baltimore, the most powerful figure in the organization, has swung away from the Toole banner.

Dunn it is said favors J. V. Jamison, president of the Blue Ridge league, with clubs in Pennsylvania, Maryland and West Virginia, for the post. Joe O'Brien, president of the Toledo club of the American association, also has been mentioned for the position as has Empire City Evans, of the American League. It is not expected, however, that Evans can be interested in the proposition.

BALLERINO LOSES TITLE TO MORGAN

Los Angeles, Dec. 3.—Tad Morgan, who once attended Broadway High school, Seattle, and who now thrives on the fog at Vallejo, Calif., where another great fighter, Tom Sharkey, was discovered four years ago, is today world's junior light weight champion. And Mike Ballerino of Bayonne, N. J., is probably wondering just what told him "there's gold in them hills."

Morgan scored a technical knockout over the champion here last night in the tenth round of a somewhat hectic bout after beating Ballerino as flat as a Jersey oyster.

The Californian warmed up in the third round by sending the champion down for a nine count, socked him half senseless into the ropes in the sixth and had the crowd yelling to the referee to end it in the ninth and tenth.

Just as Referee Benny Whitman reached for Morgan's arm midway in the final round to save the champion

from further damage, Manager Frank Churchill whirled a fluttering towel ringward.

Ballerino took only one round—the first. Broadminded persons said the second, fifth and seventh were even.

3 MORE TEAMS IN CITY COURT LEAGUE

Three more teams entered the city basketball league Wednesday night. They are the Standard Oils, Salem Cubs and Emanuel Lutherans. Director Joe Kelley states that this makes seven teams, with the Deming, Nail Mill, Salem Tires and Mullins which entered earlier.

One more team is needed to fill out the league and application for this vacancy should be made at once, Kelley states, because the league should get under way next week.

SCHAEFER LOSES TO HOREMANS BY CARELESS PLAY

Chicago, Dec. 3.—Carelessness was today ascribed as the reason for young Jake Schaefer's overthrow as the world's champion 18.2 ball line billiard player by Edward Horemans in the final block of their title match here last night.

Schaefer trailed the Belgium champion through the first and second blocks and got away to a bad start in last night's play, but rallied on the eighth inning to break all existing world's records by running 432, bringing the total count to 1,491 to 1,426 in his favor for the match.

The former champion clicked off four almost impossible shots, and then carelessly missed a sixth follow play. Horemans went on to win half of the inning with an unfinished run of 74.

It was the first championship in 18.2 ball line billiards Europe has had since 1905 when Slosson defeated Vignaux of France in the second international tournament.

PEACE OFFER TO BE REJECTED BY WISCONSIN BLOC

Washington, Dec. 3.—The Wisconsin house delegation took action today indicating it would reject the "peace offer" of administration leaders to return to "Republican" party councils.

At a meeting of the delegation, Rep. Frear was elected chairman, and Rep. Lambert, secretary.

Administration leaders have decided that the so-called insurgents must vote with Republicans in electing the speaker of the house and support the ways and means committee's tax bill if they are to get regular committee assignments.

Frear said the delegation made no formal decision whether to accept this proposal but indicated that members would not be "coerced."

New York—Dry agents seized two thousand boxes of liquor-filled candy and arrested five girls who were filling the boxes in a factory.

Dempsey Willing To Meet Firpo In West

New York, Dec. 3.—According to advices reaching here from the coast Jack Dempsey has signified his willingness to meet Luis Firpo in the ring again, provided the bout is held in Los Angeles.

It was said that the champion intimated he would be ready to take on Firpo before meeting Harry Willis next summer.

The statement followed reports from Buenos Aires that Firpo, announcing his re-entry into boxing, declared that he would sail for the United States in March to demand another bout with Dempsey.

LYNCH IS WINNER OVER ROSENBERG

Oakland, Cal., Dec. 3.—"California" Joe Lynch may never be a champion, but he can always say that he whipped one.

Going into the ring here last night a short ender, Lynch surprised the dopesters by winning a ten round decision from Charley Phil Rosenberg of New York, world's bantamweight champion.

The title was not at stake, as both fighters were over the bantamweight limit.

The fact that he was fighting a champion did not awe Lynch. He began carrying the fight to Rosenberg in the first round. The New Yorker was content to feel on his opponent.

Although Rosenberg lost the decision, the champion made a fight of it all the way, and the decision was a close one.

K. O. Phil Kaplan, middleweight, defeated Johnny Cline in the eight round semi-windup.

When winter's snow is falling outside—and the noise of wind roars through the trees—when the house is dark but for the blazing logs in the fireplace—have a Camel!

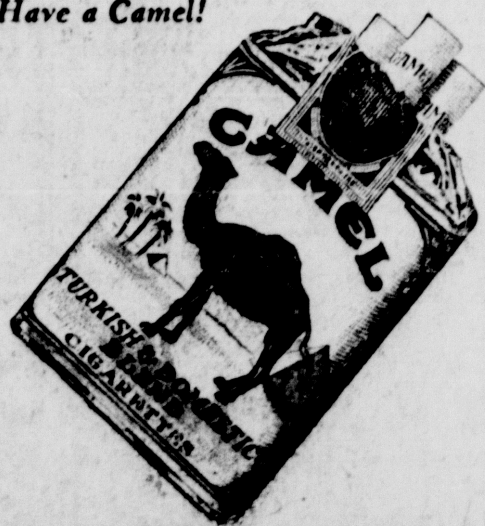

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

WHEN it's a winter night and the day that was busy is done. And outside the snow is driving through the trees before the wind. When, inside, the crackling logs catch fire and burst into flames above the hearth—have a Camel!

For Camel is the tried and trusted friend of millions of experienced smokers. Whether your returning steps bring you home tired or jubilant, no sweeter, more mellow fragrance ever came to you from a cigarette. There's not a cigarette after-taste, not a tired taste in a whole country full of Camels. Only mild and mellow flavor, deep-down contentment in your home or any home where Camels are lighted.

So this night, before your roaring logs of oak or hickory—have a Camel. Open up the famous package of Camels and know the fragrance, the contentment that brings happiness to millions. Put a Camel between you and a light and taste the mellowest, most delectable blend ever made into a cigarette.

Have a Camel!

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.

THE GUMPS—THE BAIT

Hair Beauty

Thick, Gleamy Hair in a Moment

Try this! When combing and brushing your hair, just moisten your hair brush with a little "Dandergine" and brush through your hair. The effect is startling! You can dress your hair immediately and it will appear twice as thick and heavy, an abundance of gleamy, wavy hair, sparkling with life, incomparably soft, fresh, youthful.

Besides beautifying the hair, a 50 cent bottle of refreshing fragrant "Dandergine" from any drug store will do wonders, particularly if the hair is dry, thin, brittle, faded or streaked with gray from constant curling and waving which burn the color, lustre and very life from any woman's hair.

Texas Woman Sick For Six Long Weeks

Mrs. Almond Finally Relieved of Miserable Stomach Trouble By Dr. Thacher's Liver and Blood Syrup.

When people come forward from all parts of the country and voluntarily offer their unqualified endorsement of a preparation that has relieved their sufferings and made them well and strong, no better evidence could be wanted as to its real worth to the sick and afflicted.

Such evidence is constantly being presented from sources widely separated, showing the great esteem in which Dr. Thacher's Liver and Blood Syrup is regarded by people everywhere.

Among the latest of those who declare their unbounded faith in this preparation is Mrs. M. W. Almond, of Jacksonville, Texas, who writes: "I was sick for six weeks and suffered so terribly I just couldn't keep anything on my stomach. I was under treatment all the time, but

never got any better, so one day I begged my husband to get me a good stomach medicine from the drug store. He brought me a bottle of Dr. Thacher's Liver and Blood Syrup. I had never taken it before and was so nervous and discouraged I began to cry and said I didn't want it. But he insisted on giving me a dose, and after taking a few doses I felt so much better I just kept on with it till now I am as strong and healthy as I could wish."

No doubt there are many people right here in Salem who have the same trouble that afflicted Mrs. Almond and who would be as quickly relieved if they followed her example. For sale by The J. H. Lease Drug Co., Flooding's drug store, Bolger & French and other leading druggists.

YOU'LL LIKE "THE KING"

Paramount's "The King on Main Street," adapted for the screen by Douglas Doty from Leo Dietrichstein's Broadway stage play, "The King," by G. A. de Caillavet, Robert de Fiers and Samuel Aronson, is the feature at the State tonight.

Adolphe Menjou is starred in the title role. Grete Nissen, the blonde Norse beauty of "Lost a Wife" and Bessie Love are featured at the head of a strong supporting cast.

"The King on Main Street" is a romantic comedy in which Menjou, as the King of a small European country, meets and falls in love with a young American girl, is entertained in a big way in a small town and then returns to his own country without the girl.

Florence Vidor, Tom Moore, Esther Ralston and Ford Sterling, of comedy fame, are featured in the principal roles of the Paramount comedy, "The Trouble with Wives," which will be the feature at the State Friday. Malcolm St. Clair, who made "Are Parents People?" directed the production, an original screen story by Sada Cowan and Howard Higgins.

AT THE GRAND

Henry H. Brown's celebrated stage success, "Checkers," came to the Grand theatre last night in the form of a pleasing, thrilling melodrama at the Grand theatre. It is called "Gold Digger" and, like its title, is rich in romance and atmosphere that combines to make excellent motion pictures.

William Fox has taken this stage play and made a fast-moving comedy drama which will make you laugh a little, cry a little and be thrilled a whole lot. Robert Agnew plays the role of "Checkers" Campbell, the jockey and race-track tout.

"The Saddle Hawk," Universal-Gibson Production, starring Hoot Gibson, which is coming to the Grand Friday is a western drama of the days when cattle stealing was one of the great impetuses to the peace of the country of west rangers. Edward Sedgwick, who has directed some 20 picture starring Gibson, is the director and the supporting cast includes Marian Nixon as leading woman; Jack Sedgwick, Charles K. French, G. Raymond Nye, Frank Campeau and William Steele.

DAWES SAYS HE WAS MISQUOTED ON SENATE WAR

Chicago, Dec. 3. — Declaring that "rather gross" misquotations of a speech which he made Monday to a gathering of Illinois Republican women had given his political enemies a chance to put him in a false light, Vice President Charles G. Dawes declared today that he did not propose to become embroiled in a fight "that may affect my politics."

The vice president was boarding a train for Washington to attend the convening of congress.

He refused to be interviewed, saying that hereafter he would be heard only through formal statements, one of which he passed out to reporters. It gives the transcript of what he said in the parts of his speech which he says were misquoted.

Washington—The country will soon be face to face with a timber famine unless there is more conservation and attention paid to re-growth. Secretary of Interior Work said in his annual report.

The Correct Washing Principle

—that's the reason for the pronounced superiority of **THE EASY VACUUM ELECTRIC WASHER**

That's why every year sees such a large increase in the number of owners of Easy Washers.

Three inverted cups impel compressed air and warm sudsy water thru and thru the meshes of the clothes— aerating them—freshening them—maintaining a live, soapy mixture for the proper washing of dainty things or heavy garments.

Is it any wonder that this frictionless air cushion principle—so superior to other methods—is universally accepted as the only Right Way to wash clothes?

"Purges" and "Physics" Bad for Old Folks

DR. W. B. CALDWELL
AT THE AGE OF 83

While Dr. W. B. Caldwell of Monticello, Ill., a practicing physician for 47 years, knew that constipation was the curse of advancing age, he did not believe that a "purge" or "physic" every little while was necessary.

To him it seemed cruel that so many constipated old people had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils every day or two.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which regulates the bowels of old folks. A single dose will establish natural, healthy bowel movement for weeks at a time, even for those chronically consti-

Potato Omelet—Beat the yolks of three eggs light. Season one cupful of mashed potatoes with one saltspoonful of salt, one-half cupful of milk, two teaspoonfuls of sifted flour, a little chopped parsley, pepper to taste, and a little lemon juice. Beat the yolks of the eggs into this, then the well-beaten whites. Heat an omelet pan, butter, and when hot pour the omelet into it. Brown lightly, turn and serve very hot.

Cream of Onion Soup—Cook half a dozen medium sized onions and one potato in salted water (using as little as possible) until tender. Rub through a wire strainer. Melt one large tablespoon of butter in saucepan, add one tablespoon flour, mix smooth, gradually add a pint of milk and bring to boiling point. Add onion and potato, season, boil up and serve.

Lamb Patties—One-half pound ground lamb, salt, pepper, four strips of bacon. Have the butcher grind any cheap cut of lamb as for hamburger steak. If yours is a small family that doesn't like eating leftovers

PAIN, NEURITIS, ACHING JOINTS

With applicator attached to cork, just brush "Heet" over the pain area, whether in hands, elbows, shoulders, feet, knees, legs, back, neck or body. Instantly, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of the aching or swollen joint, muscle or nerve. Besides, "Heet" scatters the congestion and establishes a cure.

"Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or analgesics. "Heet" is a clean, pleasant liquid, doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

Strike Retroactive Estate Tax Feature From Revenue Bill

Washington, Dec. 3.—According to the wishes of the treasury, the house ways and means committee today struck from the new revenue bill the retroactive estate tax which would have applied the lower 1921 rates to 1924 estate taxes.

Action followed a report by the treasury that the provision would have raised the total tax reduction in the bill above the "margin of safety."

With the retroactive feature out of the measure, the total reduction in the bill now totals about \$328,000,000, Rep. Green, (R) of Iowa, chairman of the committee, declared.

Stops That Tough Hang-On Cough That Racks Your Whole Body

The simple coughs any simple sweet syrupy cough syrup will probably do.

But when you want to throw out of your system one of those old timers, that simply won't be conquered, but lingers on and on causing sleepless nights and days of torment then you've just got to have a real cough medicine.

Then you must ask your druggist for a bottle of Broncholine Emulsion for the harder and tougher and tighter they come the more joy Broncholine gets in knocking them out.

Broncholine isn't a cheap cough conqueror, mind you, for first rates are never cheap. But if you are one of the unlucky ones that a persistent, health destroying cough is pushing

from roasts, have part of the shoulder ground, keeping the rest for the roast. Mix seasonings with meat and shape into four little cakes. Fasten around each one a strip of bacon and secure with a toothpick. If desired, place a mint leaf on top of each one, and broil or bake for about 15 minutes in a hot oven.

Wholesome Food For Children

Simple, clean, wholesome food of the right kinds fed to children in proper quantities and combinations will go farther than almost any other single factor in assuring them normal health and sturdy development.

The principles that should govern the choice of food for children between three and ten years of age and specific suggestions for meals made up of such food are set forth in a free booklet which the Washington Information Bureau of this paper has for distribution.

If you want a copy of this valuable offering fill out the attached coupon and enclose two cents in stamps for return postage.

Young People Today Have Better Times, Debate Judges Rule

A debate on "Resolved, That our grandparent had better times in their days than the young people do today," was contributed by Eleanor Stratton, meeting of Perry grange Wednesday evening at the hall, Franklin rd. The negative side defended by Glen Bates and Mary Bates won the decision. S. N. Van Blaricom and Mrs. James McConner upheld the affirmative side.

George Barnes gave a talk on "Pests." A recitation, "Thanksgiving," was contributed by Eleanor Stratton, and Mrs. Deville offered a piano solo. Past masters of the grange will have charge of the program at a meeting in two weeks.

Washington—Bootleggers are going to find it difficult to get Sacramento wine hereafter. The treasury has decided to cut the allowance for Jews in half, and to make rabbis personally responsible for its distribution, eliminating "agents" who heretofore have handled it. Permits will be given only bonafide rabbis.

LATEST IN STYLE FOR WOMEN

Paris, Dec. 3.—A frock without a coat this year is as rare as jewels on the Mikado's brow. The separate dress is entirely out of the running. All the smart frocks are shown with a wrap of some sort, either a coat or a cape, and if the frock happens to be a jumper, it must have its little jacket.

The "ensemble" is the fashionable costume for morning, afternoon or evening wear. Kasha and the soft cashmeres make the smartest ones for the morning promenade. Madame Philippe is showing an original one in beige kasha shading towards orange. The border of the skirt, the collar, cuffs and waistline pockets are in brown. Another amusing one is made of white wool with an all-over design of black with the lower borders, collar, cuffs and buttons in designs of black, green, red and brown. Velvet is the most fashionable type of ensemble for afternoon wear. Dark green and royal blue are very much seen. Francis is showing a smart velvet jumper frock in green with the skirt pleated in tiers and worn under the coat of the same green velvet.

made with side godets and trimmed with Japanese fox collar and cuffs. An attractive ensemble seen at the Elitz tea last week had the frock of black chiffon velvet with the skirt pleated and attached to a fitted bodice finished by a red silk sash tied on one side. The coat is in black velvet lined with red silk and bordered with chinchilla.

Coats are usually dark when they do not actually match the dresses worn under them and all are flared and have some fur trimming. Tushman is making a charming model in purple crepe de chine with pleated panels and long sleeves. Over it comes a coat in a darker shade trimmed with the same fur. A green coat trimmed with red fox has a little crepe de chine dress to match and under a navy blue is a blue silk frock with bright embroidery. A black velvet coat also trimmed with red fox is worn over a black velvet dress with long sleeves and a creamy lace collar and cuffs. The dress is straight in line and the coat full with a heavy band of fur about the hem. For a warmer day comes black satin lined with natural colored kasha and trimmed with kolinsky. Under it is worn a black satin dress.
